# PROJECTORS

All lecture halls are equipped with two screens and a Windows PC with MS Office installed. This PC can be used for presentation. Presenters can also connect their own PC using HDMI.

The conference organisers will have some adapters available in case this is needed. As there may be a shortage of adapters, we encourage presenters that do not have an HDMI port on their PC to bring their own adapter.

# PETRI NETS PROCEEDINGS

The proceedings of the main conference is published by Springer-Verlag as volume 13288 in the Lecture Notes in Computer Science Series (LNCS).

Participants registered for the conference have free online access to the proceedings granted for 4 weeks, between 16 June – 16 July 2022. The access is available via:

<https://petrinets2022.github.io/proceedings>

Note that the proceedings must be accessed via the above link for free access.

The organisers have received 50 physical copies of the proceedings from Springer. These copies have been provided to the registered authors of accepted papers for the main conference and the programme committee chairs.

Participants who have received a physical copy but are not interested in the copy may return it to the registration for the benefit of other main conference participants.
